

PTP-MAL

Proficiency Testing Program for
Mineral Analysis Laboratories

Proficiency testing provider
accredited by the Standards Council
of Canada for ISO/IEC 17043

www.ccrmp.ca

**Certificate of
Successful Participation in Proficiency Tests
Saskatchewan Research Canada - Geoanalytical
Laboratories**

Saskatoon, Saskatchewan, Canada

has been assessed "Satisfactory" for test samples in

April 2021 cycle

for*:	Cobalt¹	Copper¹	Gold²
	Lead¹	Nickel¹	Palladium²
	Platinum²	Silver³	Zinc¹

*General description of analytical methods applied (refer to the performance report for more details).

1. Two acid digestion with ICP optical emission spectrometry measurement.
2. Lead collection fire assay with ICP optical emission spectrometry measurement.
3. Two acid digestion with ICP mass spectrometry measurement.
