

SRC Nuclear

Pioneering Microreactors in Saskatchewan

Saskatchewan Suppliers' Energy Forum

October 4, 2023 Regina, SK

Land Acknowledgement

We acknowledge that the land on which we gather and meet today is Treaty 4 Territory and the Homeland of the Métis.

We acknowledge there are others joining us today who are from other regions and territories across Canada.

Safety Moment

- Travel safely – check the Highway Hotline before venturing out
- <https://hotline.gov.sk.ca/>
- Phone: 5-1-1 or 1-888-335-7623
- Download the app

The eVinci™ in Saskatchewan

- Microreactors offer heat and power solutions for Saskatchewan communities and industries
- Our goal is to pioneer the deployment of this technology for multiple applications across the Province
- SRC and Westinghouse are working to together to bring this first of a kind reactor to Saskatchewan by 2030

SRC Nuclear

- SRC is well-positioned and experienced

SRC Nuclear

- Energy transition experience

Next Steps

- Build our team
- Plan our communications and education programs
- This is the beginning of an exciting new era in energy for Saskatchewan
